

JDM License Plate Adaptor Installation Guide

Tools needed: #4 Metric Allen Wrench, 10mm wrench or socket

For Easy Access Mounting:

1. Remove license plate
2. Bolt on adaptor with studs mounted toward the center of the license plate with supplied Allen bolts
3. Bolt on plate with supplied locking nuts

For Hidden Mounting:

1. Remove license plate
2. Bolt on adaptor with the studs mounted toward the outside of the license plate with supplied Allen bolts
3. Install 2x washers on each stud to allow the plate to clear the Allen bolts
4. Bolt on plate with supplied locking nuts
